Team 2502 Talon Robotics

Captain's Application

Any Talon Robotics' student with at least one year FIRST robotics experience and currently a Sophomore or Junior is eligible to apply to be a captain. Answer each of the following questions, answer on the back or attach additional sheets as necessary. Each application will be reviewed by a mentor and then made available to all students and mentors prior to voting. Applications must be submitted by Tuesday, April 30. Turn in or email to sandy.olson@team2502.com . Applicants will interview with Mentors early May and then be invited to provide a short presentation before voting takes place on Tuesday, May 14.

Student Name_____

Student Grade next year (2019/20): Junior Senior

Position Applying for: Engineering Business Either

1. Why do you want to be a captain? What vision do you have for the team next season?

2. Describe a leadership position you have had or the skills you possess that make you a good candidate.

3. How would you plan to organize the team and/or get other team members involved?

4. Any additional comments

My student has discussed this application with me and I understand the time commitment involved for the 2019/2020 Robotics Season. (if emailing application, please have parent email their consent to this)
